

Chiropractic and Natural Health Care ... A Better Way to Optimal Health

OFFICE POLICY FOR PATIENTS

Please understand that we are very serious about your health and well-being. Great care has been taken in putting together a treatment plan to afford you the greatest benefit in the least amount of time and that is most cost effective. There are two things we hold in highest regard - your health and our reputation, therefore...

1. As a patient of this office, I will commit to follow the outlined courses of care and follow the schedule recommended by the Doctor.
2. As a patient, I will make every effort to call 24 hours in advance if I cannot make my scheduled appointment.
3. I will never leave the office without knowing when my next appointment is scheduled for.
4. If there is ever any question on policy or problems that I do not understand... I will talk to the staff or to the Doctor personally.
5. When Chiropractic and Natural Health Care is successful in helping my condition, I, as a patient, will do my best to refer others so they can be helped by the benefits of Chiropractic and Natural Health Care also.
